

FISHBOWL

APRIL 2023

THE BEST NEWSPAPER IN THE BATHROOM

BOOK REVIEW

Ms. Hardison's book pick, *Just Mercy*, is a memoir by justice activist Bryan Stevenson. The book recounts his work with the Equal Justice Initiative, a group that provides legal help to those wronged by the justice system. *Just Mercy* brings attention to current issues in hopes of creating a more equitable judicial system.

"It was the one book every child said they read."

Ms. Hardison says: "It was eye-opening and life-changing ... Would absolutely recommend ... I taught this book when I taught American Studies, and it was the one book every child said they read the whole thing as seniors."

YOU EAT BUGS

The FDA allows 33 fruit fly eggs in a cup of raisins; a batch of chocolate is allowed to be 1% insect parts. The bugs add nutritional value and — if you're lucky — taste and texture.
